Quick Start Guide

PIXMA MP830

Quick Start Guide

Table of Contents

For information about the machine setup on pages 2 to 3, also refer to the *Easy Setup Instructions*.

Preparing the machine

Unpack the machine
Please confirm bundled items against the illustration printed on the lid of the packing box.

Also read the Safety Precautions in the *User's Guide*. Observe the warnings and cautions to avoid personal injury or damage to the machine.

⚠ IMPORTANT
• Do not connect the USB cable until after the software is installed.
• A printer cable is not included. You must purchase a USB cable (less than 10 ft. / 3 m) to connect your machine to a computer.

1 Connect the telephone line and the power cord.
  • If you connect the telephone line, see "Examples of Connecting the Machine" on page 36.

  UK users only
  If the connector of the external device cannot be connected to the jack on the machine, you will need to purchase a B.T. adapter to connect as follows:
  Connect the external device line to the B.T. adapter, then connect the B.T. adapter to the ☎ jack.

2 Turn on the machine.
  • The language setting is only available for some countries.
  • If you have an undesired language or country selection, refer to the *User's Guide*.

3 Install the Print Head.
  • If the Scanning Unit (Printer Cover) is left open for more than 10 minutes, the Print Head Holder moves to the right. Close and reopen the Scanning Unit (Printer Cover) to return the Holder to the center.
  • There might be some transparent or light blue ink on the inside of the bag the print head comes in - this has no effect on print quality. Be careful not to get ink on yourself when handling these items.
  • Do not reattach the protective cap once you have removed it.

4 Install the ink tanks.
  • Ensure that all the ink tanks are installed in the order directed by the label. The machine cannot be used unless all the ink tanks are installed.
  • For safety reasons, store ink tanks out of the reach of small children.
  • Do not drop or shake ink tanks as this may cause the ink to leak out and stain your clothes and hands.
  • Be sure to remove the clear film from the ink tank in the exact order as shown in step 3.
  • Do not reattach the protective cap once you have removed it.
  • The Alarm Lamp still lights orange if an ink tank is not installed properly. Open the Scanning Unit (Printer Cover) and make sure that all the ink tanks are installed in the correct order directed on the label.

5 **Align the Print Head from the Operation Panel.**

Execute automatic Print Head alignment to keep high print quality.

- When executing automatic Print Head alignment, always load paper in the Auto Sheet Feeder. You can load paper in both the Auto Sheet Feeder and Cassette when printing. For details, refer to the *User's Guide*.
- If the automatic Print Head alignment screen is not displayed, see "Aligning the Print Head Automatically" on page 49.
- When the Print Head position pattern is printed, Print Head alignment is complete.

For fax users

Select the receive mode according to your needs. See "Receive Modes" on page 44.

- If you want to receive only faxes automatically with your machine, or you have a dedicated telephone line for fax use only:

  <FAX only>
- If you receive mainly voice calls and sometimes faxes, or you want to receive faxes manually:

  <Manual RX>
- If you want to receive voice messages on your answering machine and receive faxes automatically:

  <Ans. machine connect.>
- If you want to receive faxes automatically as well as voice calls:

  <FAX/TEL auto switch>
- If you have subscribed to a Distinctive Ring Pattern Detection (DRPD) service with your telephone company (US and Canada only):

  <DRPD>
- If you want your machine to automatically switch between fax and voice calls by the call ring patterns (Network Switch):

  <Network switch>

✎

- To send a fax, you need to set the telephone line type setting properly on the machine. For details on how to confirm and change this setting, refer to the *User's Guide*.

  If you are unsure of your telephone line type, contact your telephone company.

For information about the software installation on this page, also refer to the *Easy Setup Instructions*.

Install the software

Select Easy Install in order to install the application software, On-screen Manual and MP drivers. Select Custom Install in order to choose the options you would like to install.

⚠ IMPORTANT
• Temporarily close any open applications, including anti-virus software. Computer security programs can be re-started after software installation.

Installing the MP Driver - Windows®

• If you have an earlier version of the MultiPASS Suite software installed on your computer, uninstall this version before installing the new version. For instructions on uninstallation, refer to the guides for that version of MultiPASS Suite.
• You must log on as an administrator or have administrative privileges in order to install the software in Windows XP or Windows 2000.
• Do not switch users during the installation process.

• If the following screen appears, the USB cable is connected.
  Perform the following steps.
  1. Press [ON/OFF] to turn off the machine.
  2. Disconnect the USB cable.
  3. Click [Cancel].

Installing the MP Driver - Macintosh®

• Do not connect the machine to Mac® OS 9 or Mac OS X Classic environments since they are not supported.
• Enter the name and password for an Administrator Account if required.

Perform the following to make sure the driver has been installed correctly
1. Select [Applications] from the [Go] menu.
2. Double-click the [Utilities] folder, then the [Printer Setup Utility] ([Print Center] when using Mac OS X v.10.2.x) icon.
   If the printer is displayed in the [Printer List], the printer driver is installed.
   If the printer is not displayed in the [Printer List], click [Add] in the [Printer List] and select [USB] from the pop-up menu. Select [MP830] from the [Product] list and click [Add].

When connecting from Mac OS X v.10.3.3 or earlier:
Restarting the computer while connected to the machine may cause the machine not to be detected. To resolve this, either unplug the USB cable then plug it back in again, or turn the machine OFF then back ON again.

✐
• [MP830 FAX] is shown in the Name list, but you cannot add [MP830 FAX]. You can fax the document with the current print settings applied to it using the computer's internal modem. You cannot send faxes from your computer via the machine.

Canon MP830 Quick Start Guide

Disclaimer

Canon Inc. has reviewed this manual thoroughly in order that it will be an easy-to-use guide to your Canon MP830 Series. All statements, technical information and recommendations in this manual and in any guides or related documents are believed reliable, but the accuracy and completeness thereof are not guaranteed or warranted, and they are not intended to be, nor should they be understood to be, representation or warranties concerning the products described.

Specifications are subject to change without notice.

As an ENERGY STAR partner, Canon Inc., has determined that this product meets the ENERGY STAR guidelines for energy efficiency.

All information regarding non-Canon products was compiled from publicly available information. No representation is made regarding the accuracy thereof.

Super G3 is a phrase used to describe the new generation of fax machines that use ITU-T V.34 standard 33.6 Kbps* modems. Super G3 High Speed Fax machines allow transmission time of approximately 3 seconds* per page which results in reduced telephone line charges.

* Approximately 3 seconds per page fax transmission time based on Canon FAX Standard Chart (Standard Mode) at 33.6 Kbps modem speed.

The Public Switched Telephone Network (PSTN) currently supports 28.8 Kbps modem speeds or lower, depending on telephone line conditions.

Exif Print

This machine supports Exif 2.2 (also called "Exif Print").
Exif Print is a standard for enhancing the communication
between digital cameras and printers.
By connecting to an Exif Print-compliant digital camera, the
camera's image data at the time of shooting is used and
optimized, yielding extremely high quality prints.

CE

This equipment conforms with the essential requirements of EC
Directive 1999/5/EC. We declare that this product conforms with the
EMC requirements of EC Directive 1999/5/EC at nominal mains input
230V, 50 Hz although the rated input of the product is 200V–240V, 50/
60 Hz. If you move to another EU country and are experiencing trouble
please call the Canon Help Desk.

(For Europe Only)

▶ How to Use the Documentation Provided

Easy Setup Instructions (Printed documentation):

Be sure to read this sheet first.
This sheet includes instructions for setting up your machine and getting it ready for use.

Quick Start Guide (This guide)

Read this guide when starting to use the machine.
After following instructions in the Easy Setup Instructions, we recommend you read this guide to familiarize yourself with the basic operation of some of the main functions that can be performed on your machine.

On-screen Manuals

User's Guide
Read this guide when starting to use the machine.
After following instructions in the *Easy Setup Instructions*, read this guide for instructions on printing from your computer, direct photo printing from selected digital cameras, faxing, copying, and scanning.

Refer to these guides as needed for full instructions on some of the more advanced features.
Scan Guide
Refer to this guide for full instructions on scanning operation and settings.
Printer Driver Guide
Refer to this guide for full instructions on setting the printer driver.
FAX Driver Guide
Refer to this guide for full instructions on setting the fax driver.
Photo Application Guide
Refer to this guide for instructions on using various application software included on the Setup CD-ROM.

▶ How to Read the On-screen Manuals

The on-screen manuals are manuals to be viewed on your computer.
Read these manuals for detailed information on usage of the machine that is not mentioned in this document, troubleshooting, or usage of the application softwares supplied with the Setup CD-ROM, etc.

If you have not installed or have deleted the on-screen manuals, you can install them using the Setup CD-ROM by either of the following.
• Select "Easy Install" to install the on-screen manuals along with the MP driver and application softwares.
• Select "On-screen Manual" from "Custom Install" to install the on-screen manuals.

For Windows:
• Browser: Windows® HTML Help Viewer

✎
• Microsoft Internet Explorer® 5.0 or later must be installed.
• The on-screen manual may not be displayed properly depending on your operating system or Internet Explorer version. We recommend that you keep your system up to date with Windows Update.

For Macintosh:
• Browser: Help Viewer

✎
• The on-screen manual may not be displayed properly depending on your operating system. We recommend that you keep your system up to date.
• We recommend using Safari as your Web browser to view the HTML format On-screen Manuals. If Safari is not installed on your computer, download it from Apple Computer, Inc. website and install it.

▶ Reading the Document

Symbols Used in This Guide

⚠ **WARNING**	**Indicates a warning concerning operations that may lead to death or injury to persons if not performed correctly. In order to use the machine safely, always pay attention to these warnings.**
⚠ **CAUTION**	**Indicates a caution concerning operations that may lead to injury to persons or damage to property if not performed correctly. In order to use the machine safely, always pay attention to these cautions.**
⚠ **IMPORTANT**	**Indicates operational warnings and restrictions. Be certain to read these items to operate the machine correctly and to avoid damage to the machine.**
✐	Indicates notes for operation or additional explanations. Reading these is highly recommended.
1. (Operation branch-step)	Used to explain each operation of a branch procedure.

Buttons Used in This Guide

[button name]	Text enclosed in these brackets indicates a button on the Operation Panel of the machine or an item on the computer to be manipulated. Example: [Color]
<message>	Text enclosed in these brackets indicates a message or selectable menu item which appears on the LCD (Liquid Crystal Display). Example: <Photo Paper Pro>, <OFF>

Terms Used in This Guide

machine	General term used to represent MP830.
default	A setting that remains in effect unless you change it.
documents	The original sheets of paper, pages of a book, or photographs you copy, fax, or scan with the machine.
paper	Paper on which you can print with the machine.
menu	A list of settings from which you select an item to set up or change. A menu has a title which appears on the LCD.

▶ Selecting the Language for the LCD

1 Press [Menu].

2 Use [◀] or [▶] to select <Maintenance/settings>, then press [OK].

3 Use [◀] or [▶] to select <Device settings>, then press [OK].

4 Use [▲] or [▼] to select <Language selection>, then press [OK].

5 Use [▲] or [▼] to select the language, then press [OK].

▶ Legal Limitations on Use of Your Product and Use of Images

It may be unlawful to make copies of, scan, print or use reproductions of the following documents. The list provided is non-exhaustive. When in doubt, check with a legal representative in your jurisdiction.

- Paper money
- Money orders
- Certificates of deposit
- Postage stamps (canceled or uncanceled)
- Identifying badges or insignias
- Selective service or draft papers
- Checks or drafts issued by governmental agencies
- Motor vehicle licenses and certificates of title

- Traveler's checks
- Food stamps
- Passports
- Immigration papers
- Internal revenue stamps (canceled or uncanceled)
- Bonds or other certificates of indebtedness
- Stock certificates
- Copyrighted works/works of art without permission of copyright owner

▶ Users in Canada

Pre-installation Requirements for Canon Facsimile Equipment

A. Location
Supply a suitable table, cabinet, or desk for the machine. See the Appendix for the machine's specific dimensions and weight.

B. Order Information
1. Provide only a single line touch-tone or rotary telephone set terminated with a standard 6-pin modular telephone plug. (Touch-tone is recommended if available in your area.)
2. Order a CA11A modular wall jack, which should be installed by the telephone company. If the CA11A modular wall jack is not present, installation cannot occur.
3. Order a normal business line from your telephone company's business representative. The line should be a regular voice grade line or an equivalent one. Use one line per machine.
   DDD (Direct Distance Dial) line
   -or-
   IDDD (International Direct Distance Dial) line if you communicate overseas

✐
• Canon recommends an individual line following industry standards, such as the 2500 (touch-tone) or 500 (rotary/pulse dial) telephones. A dedicated extension off a PBX (Private Branch Exchange) unit without "Call Waiting" can be used with your facsimile unit. Button telephone systems are not recommended because they send non-standard signals to individual telephones for ringing and special codes, which may cause a fax error.

C. Power Requirements
The power outlet should be a two-prong grounded receptacle (Single or Duplex). It should be independent from copiers, heaters, air conditioners or any electric equipment that is thermostatically controlled. The rated value is 120 volts and 15 amperes. The CA11A modular jack should be relatively close to the power outlet to facilitate installation.

Notice
This equipment meets the applicable Industry Canada terminal Specifications.

Avis

Le présent matériel est conforme aux spécifications techniques applicables d'Industrie Canada.

Before installing this equipment, users should ensure that it is permitted to be connected to the facilities of the local telecommunications company. The equipment must also be installed using an acceptable method of connection. In some cases, the company's inside wiring associated with a single-line individual service may be extended by means of a certified connector assembly (telephone extension cord). The customer should be aware that compliance with the above conditions may not prevent degradation of service in some situations.

The Ringer Equivalence Number is an indication of the maximum number of devices allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices does not exceed five.

Even if the dual-line option is installed, the REN is applicable to each port.

Avis

L'indice d'équivalence de la sonnerie (IES) sert à indiquer le nombre maximal de terminaux qui peuvent être raccordés à une interface téléphonique. La terminaison d'une interface peut consister en une combinaison quelconque de dispositifs, à la seule condition que la somme d'indices d'équivalence de la sonnerie de tous les dispositifs n'excède pas 5.

Repairs to certified equipment should be made by an authorized Canadian maintenance facility designated by the supplier. Any repairs or alterations made by the user to this equipment, or equipment malfunctions, may give the telecommunications company cause to request the user to disconnect the equipment.

Users should ensure for their own protection that the electrical ground connections of the power utility, telephone lines and internal metallic water pipe system, if present, are connected together. This precaution may be particularly important in rural areas.

⚠ **CAUTION**
- **Users should not attempt to make such connections themselves, but should contact the appropriate electric inspection authority, or electrician, as appropriate.**
- **This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.**
- **Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.**

Customer Technical Supports

Canon Canada Inc., offers a full range of customer technical support* options:

• For interactive troubleshooting, e-mail technical support, the latest driver downloads and answers to frequently asked questions (www.canon.ca)

• Free live technical support Mon - Fri 9am-8pm EST (excluding holidays) for products still under warranty (1-800-OK-CANON)

• The location of the authorized service facility nearest you (1-800-OK-CANON)
If the problem cannot be corrected by using one of the above technical support options, repair options are available at the time of your call to the Free live technical support number above or via the website at www.canon.ca

* Support program specifics are subject to change without notice.

ENGLISH

1 Introduction

▶ **Main Components and Their Functions**

Front View
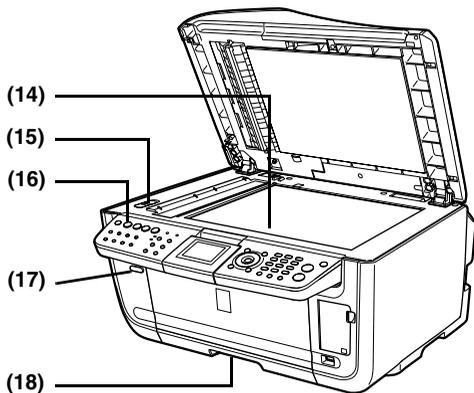

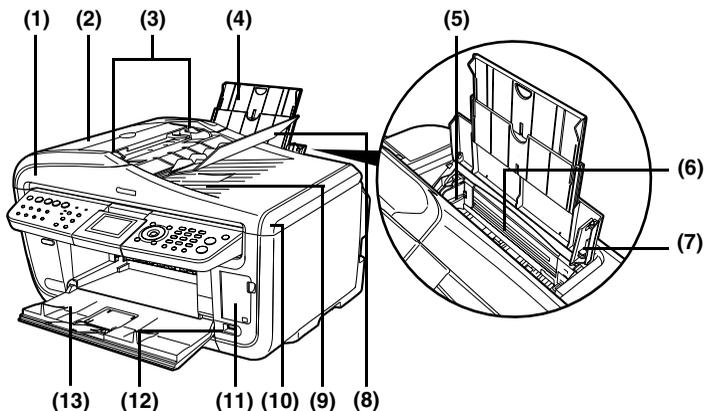

(1)	ADF (Automatic Document Feeder)	Automatically scans in documents loaded in the Document Tray.
(2)	Feeder Cover	Open when clearing jammed documents.
(3)	Document Guides	Adjust these guides to match the document width.
(4)	Paper Support	Supports paper loaded on the tray. Extend it before loading paper by putting your finger in the rounded indent and pulling out the extension until it stops.

Chapter 1   Introduction **15**

(5)	**Paper Guide**	When loading paper, ensure that the left edge just touches this guide. To move the Paper Guide, pinch the knob and slide in the appropriate direction.
(6)	**Auto Sheet Feeder**	Load paper here before printing. Paper feeds automatically, one sheet at a time.
(7)	**Cover Guide**	Align the right side of the paper to this guide.
(8)	**Document Tray**	Open to load a document. Once loaded, the document is fed one page at a time. Load the document with the side you want to scan facing up.
(9)	**Document Output Slot**	Documents scanned from the Document Tray are delivered here.
(10)	**Document Cover**	Open this cover when loading a document on the Platen Glass.
(11)	**Card Slot Cover**	Open to insert a memory card.
(12)	**Direct Print Port**	Used when printing directly from a digital camera or a digital video camcorder compatible with PictBridge or Canon Bubble Jet Direct.
(13)	**Paper Output Tray**	Open this tray before copying or printing by pressing the Open Button. However, even if it is closed, the tray will open automatically when copying or printing is started. Close the tray when it is not in use.
(14)	**Platen Glass**	Used to load a document to be processed.
(15)	**Scanner Lock Switch**	Locks the internal fluorescent lamp that is located underneath the Platen Glass (scanning lamp), to be used when transporting the machine. Make sure to unlock it before turning the machine on.
(16)	**Operation Panel**	Used to change the settings or operate the machine. See "Operation Panel Name and Functions" on page 18.
(17)	**Open Button**	Press this button to open the Paper Output Tray.
(18)	**Cassette**	Load paper to be used regularly here. Paper feeds automatically, one sheet at a time.

* Photo Stickers and 2.13" x 3.39"/ 54.0 x 86.0 mm size paper are not loadable in the Cassette.

Rear View and Interior

(19) Print Head Lock Lever	Used to fix the Print Head.
(20) Ink Tank Lamp	Lights or flashes red to indicate the status of the ink tank.
(21) Print Head Holder	Used to install a Print Head.
(22) Scanning Unit (Printer Cover)	This is the unit used to scan documents. Open when replacing the ink tanks or clearing jammed paper.
(23) Inner Cover	Set the CD-R Tray here. Open when printing on a DVD/CD.
(24) Card Slot	Set the memory card here.
(25) Access Lamp	Lights when a memory card is inserted into the Card Slot. This lamp flashes while the machine is reading or writing data from/to the memory card.
(26) Duplexing Transport Unit	Open when clearing jammed paper after pulling out the Cassette.
(27) Power Connector	This is the connector used to connect the provided power cord.
(28) Rear Cover	Open when clearing jammed paper.
(29) External Device Jack	Connects the external device.
(30) Telephone Line Jack	Connects with the telephone line.
(31) USB Connector (for computer)	This is the connector used to connect the machine to a computer using a USB cable.

Operation Panel Name and Functions

(1) [ON/OFF]	Turns the machine ON and OFF. Before turning ON the machine, make sure the Document Cover is closed.
(2) [COPY]	Switches the machine to Copy mode. Flashes when the machine is turned on.
(3) [FAX]	Switches the machine to Fax mode.
(4) [SCAN]*	Switches the machine to Scan mode. This button is used when the machine is connected to a computer. (Refer to the *Scan Guide*.)
(5) [MEMORY CARD]	Switches the machine to Memory card mode.
(6) In Use/Memory Lamp	Lights when the telephone line is in use. Lights also when there are documents stored in the machine's memory.
(7) Alarm Lamp	Lights or flashes orange, when an error occurs, or when paper or ink has run out.
(8) LCD (Liquid Crystal Display)	Displays messages, menu selections, and the operation status.
(9) [Menu]	Used to display menus.
(10)[Settings]	Use to configure the page size, media type, and image correction settings.
(11)Numeric Buttons	Enter numerical values such as the number of copies, as well as fax/telephone numbers and characters.
(12)[Stop/Reset]	Cancels operations. If this button is pressed during printing, the machine aborts printing.
(13)One-Touch Speed Dial Key	Push these buttons to dial pre-registered fax/telephone numbers or group.
(14)Auto Sheet Feeder Lamp	Lit when the Auto Sheet Feeder is selected.
(15)Cassette Lamp	Lit when the Cassette is selected.

(16)[Feed Switch]	Selects the paper source. Press this toggle switch to change the paper source between the Auto Sheet Feeder and Cassette.
(17)[Photo Index Sheet]	Switches to Photo Index Sheet mode.
(18)[Enlarge/Reduce]	Sets the enlargement or reduction ratio for copying.
(19)[Search]	Looks up target photos in the memory card using the shooting date as the search key.
(20)[Two-Sided]	Specifies settings for <Two-sided copy>.
(21)[FAX Quality]	Sets the resolution of the fax you are sending.
(22)[Back]	Allows you to return to the previous screen.
(23)[OK]	Finalizes your selection for the menu or setting item. Restores the machine to normal operation after a printing error was resolved, or if paper jams are cleared. Ejects documents remaining in the ADF.
(24)[▲] [▼] [◀] [▶]	Scroll through menu selections, and increase or decrease the number of copies. You can use these buttons when <▲>, <▼>, <◀>, and <▶> are displayed on the LCD. Also [◀] cancels the entered character, and [▶] enters a space between characters when entering characters.
(25)[Trimming]	Use to crop the photo that is displayed.
(26)[Tone]	Switches temporarily to tone dialing. Also changes the mode when entering characters.
(27)[Redial/Pause]	Redials the last dialed number using Numeric buttons. Also enters pauses between or after numbers when dialing or registering numbers.
(28)[Coded Dial]	Press this button and a two-digit code to dial a pre-registered fax/telephone number or group.
(29)[Hook]	Engages or disengages the telephone line.
(30)[Black]	Starts black & white copying, scanning, or faxing.
(31)[Color]	Starts color copying, photo printing, scanning, or faxing.

* The settings configured from MP Navigator apply when scanning from the machine's operation panel.
If with some types of original the position and size of the image is not scanned in correctly, please refer to "Selecting the Behavior of the Operation Panel with MP Navigator" in the *Scan Guide* (On-screen Manual) and change the MP Navigator [Document Type] and [Document Size] to match those of the original being scanned.

2 Document Handling

▶ Document Requirements

	Platen Glass	ADF
Document type	• Documents • Photographs • Book • Documents that are not suitable for the ADF	Multipage documents of the same size, thickness, and weight
Size (W x L)	Max. 8.5" x 11.7" / 216 x 297 mm	Max. 8.5" x 14.0" (216 x 356 mm) Min. 5.8" x 5.8" (148 x 148 mm) Only A4- or Letter-sized originals for two-sided copying or scanning
Quantity	1 sheet	• Max. 35 pages of A4- or Letter-sized sheets (20 lb. or 75 g/m^2 paper), up to 5 mm in height • Max. 30 pages of Legal-sized sheets (20 lb. or 75 g/m^2 paper), up to 4 mm in height • 1 sheet for sizes other than these
Thickness	Max. 0.8" / 20 mm	0.002" to 0.005" (0.06 to 0.13 mm)
Weight	—	13 to 24 lb. (50 to 90 g/m^2)

▶ Loading Documents

Using the Platen Glass

1 **Lift the Document Cover.**

2 **Load your document on the Platen Glass.**

• Place your document face down on the Platen Glass.
• Align the upper left corner of your document with the alignment mark on the upper left corner of the Platen Glass.

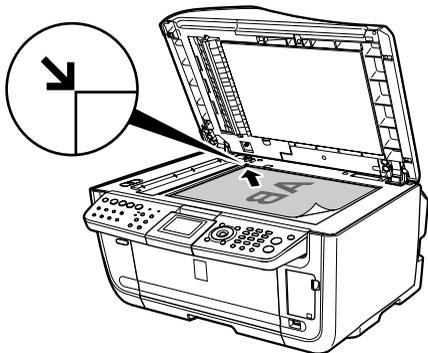

**3** **Gently close the Document Cover.**

Using The ADF

1 Remove any documents from the Platen Glass.

2 Open the Document Tray.
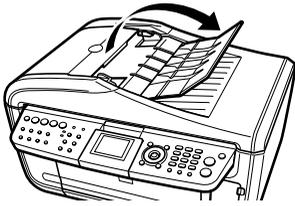

3 Load the document in the ADF (1).
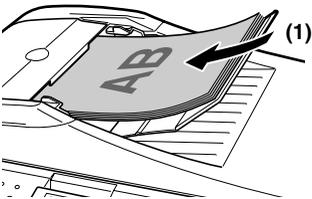

4 Adjust the Document Guides to match the document width (2).
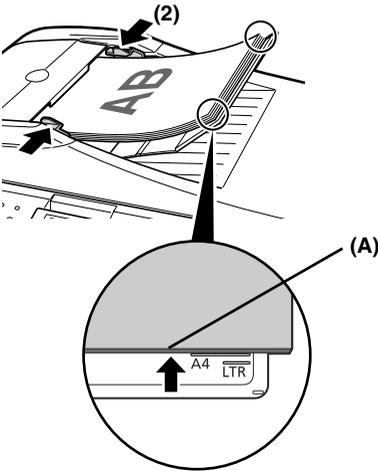

✎
• Ensure that the edge of the document stack is in line with the Paper Size Mark imprinted on the Document Tray (A).

3 Paper Handling

▶ Recommended Paper and Requirements

| Media Type	Model	Paper Support Load Limit		Printer Driver Setting for [Media Type]
		Auto Sheet Feeder	Cassette	
Plain Paper	—	0.52" / 13 mm	0.52" / 13 mm	[Plain Paper]
High Resolution Paper	HR-101N	80 sheets (A4, Letter)	80 sheets (A4, Letter)	[High Resolution Paper]
Super White Paper	SW-201	0.52" / 13 mm (A4, Letter)	0.52" / 13 mm (A4, Letter)	[Plain Paper]
Glossy Photo Paper	GP-401	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm, Credit Card)	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm), Not supported (Credit Card)	[Glossy Photo Paper]
Glossy Photo Paper "Everyday Use"	GP-501	10 sheets (A4), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	10 sheets (A4), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	[Glossy Photo Paper]
Matte Photo Paper	MP-101	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	[Matte Photo Paper]
Photo Paper Plus Double Sided	PP-101D	10 sheets (A4, Letter, 5" x 7" / 127.0 x 177.8 mm)	10 sheets (A4, Letter, 5" x 7" / 127.0 x 177.8 mm)	[Photo Paper Plus Double Sided]
Photo Paper Plus Glossy	PP-101	10 sheets (A4, Letter, 5" x 7" / 127.0 x 177.8 mm), 20 sheets (4" x 6" /101.6 x 152.4 mm)	10 sheets (A4, Letter, 5" x 7" / 127.0 x 177.8 mm), 20 sheets (4" x 6" /101.6 x 152.4 mm)	[Photo Paper Plus Glossy]
Photo Paper Plus Semi-gloss	SG-101	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	[Photo Paper Plus Glossy]
Photo Paper Pro	PR-101	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	10 sheets (A4, Letter), 20 sheets (4" x 6" / 101.6 x 152.4 mm)	[Photo Paper Pro]
Photo Stickers	PS-101	1 sheet	Not loadable	[Photo Paper Plus Glossy]
Transparencies	CF-102	30 sheets	30 sheets	[Transparencies]
T-Shirt Transfers	TR-301	1 sheet	1 sheet	[T-Shirt Transfers]
Envelopes	—	10 envelopes	5 envelopes	[Envelope]

▶ Auto Sheet Feeder and Cassette

Paper can be loaded into the machine at two locations: the Auto Sheet Feeder at the rear, and the Cassette at the front. To switch the paper source, press [Feed Switch]. The selected feeder is indicated on the Operation Panel.

Loading the Print Media in the Auto Sheet Feeder

**1** **Flatten the four corners of the paper before loading it.**
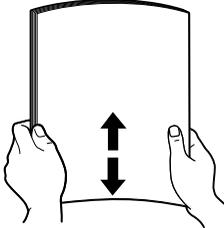

2 **Prepare to load paper.**

1. Open the Paper Support, then pull out the Paper Support Extension to support the paper.

2. Press the Open Button to open the Paper Output Tray.

3. Open the Paper Output Tray Extension completely.

4. Press [Feed Switch] so that the Auto Sheet Feeder Lamp (A) lights.
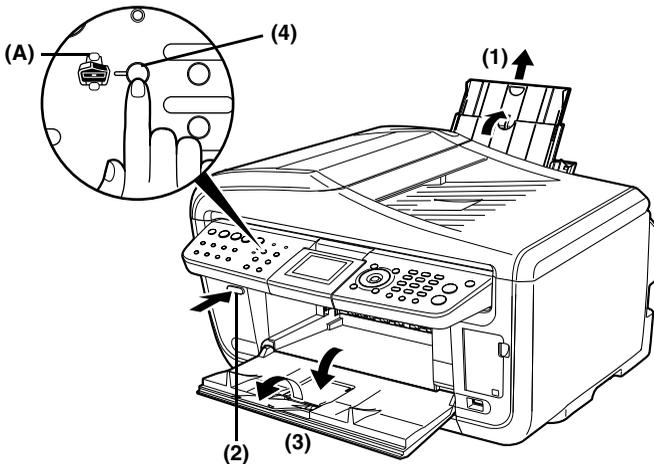

3 Load the paper.

1. Load the paper into the Auto Sheet Feeder with the print side facing UP.

2. Align the paper stack against the Cover Guide on the right side of the Paper Support.

3. Pinch the Paper Guide and slide it against the left side of the paper stack.
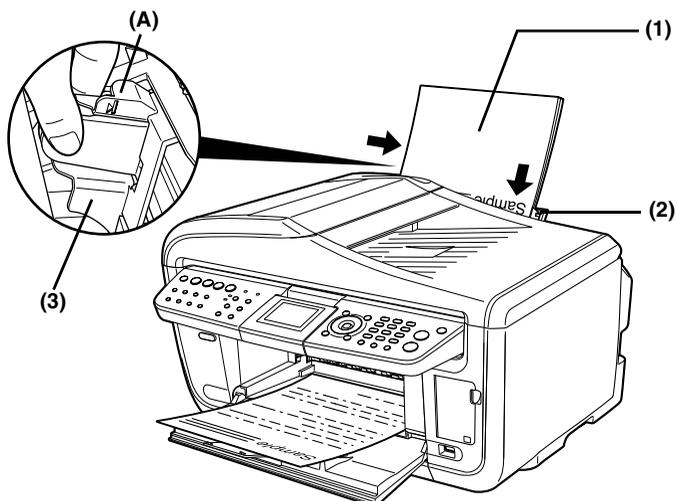

⚠ IMPORTANT
• **Do not load the paper beyond this Load Limit Mark (A).**

Loading the Print Media in the Cassette

**1** **Flatten the four corners of the paper before loading it.**
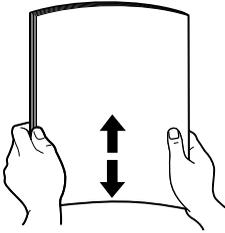

2 **Prepare to load paper.**

1. Pull out the Cassette from the machine.

(1)
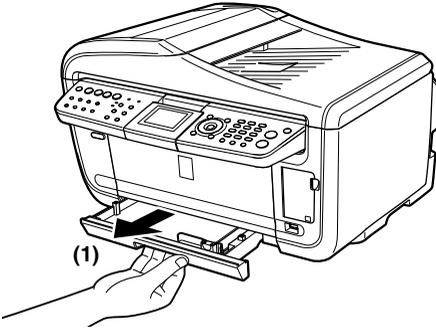

3 Load the paper. (Print side facing DOWN)

1. Load the paper into the Cassette with the print side facing DOWN.

2. Align the paper stack against the right side of the Cassette.

3. Slide the Paper Guides to fit the loaded paper stack.

(A)
(1)
(2)
(3)
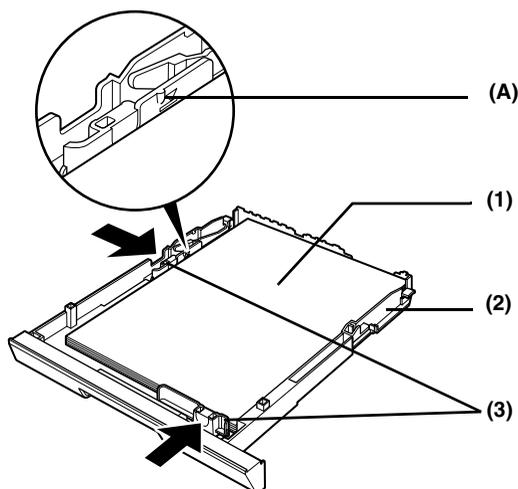

⚠ **IMPORTANT**
• **Do not load the paper beyond this Load Limit Mark (A).**

4 Insert the Cassette into the machine.

1. Insert the Cassette into the machine.
   Push the Cassette all the way into the machine.
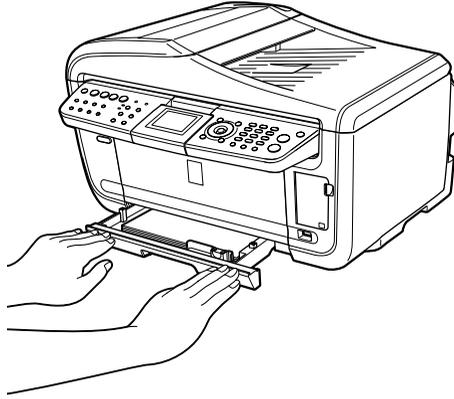

5 Prepare the Paper Output Tray.

1. Press the Open Button to open the Paper Output Tray.

2. Open the Paper Output Tray Extension completely.

3. Press [Feed Switch] so that the Cassette Lamp (A) lights.
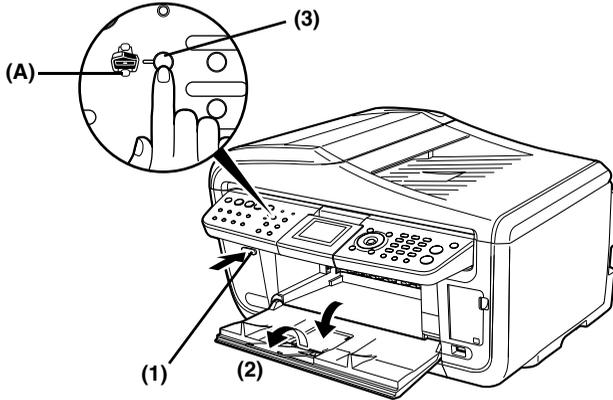

4 Copying

▶ Making Copies

When making color or black & white copies, you can adjust the print resolution and density. You can also change reduction or enlargement settings. For more information, refer to the *User's Guide*.

1 **Press [ON/OFF] to turn on the machine.**

2 **Press [COPY].**

3 **Load paper.**

4 **Ensure that the proper paper source is selected.**

5 **Load the document on the Platen Glass or the ADF.**

6 **Adjust the settings for your document as necessary.**
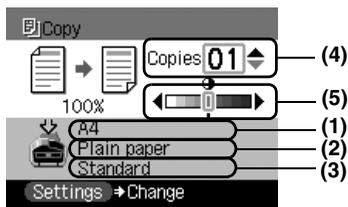

(1) Page size

The page size selected on the Settings (Copy) screen is displayed.*

(2) Media type

The media type selected on the Settings (Copy) screen is displayed.*

(3) Quality

The quality (Print quality) selected on the Settings (Copy) screen is displayed.*

(4) Copies

Use [▲] or [▼] to select the number of copies (max. 99 copies).

(5) Intensity

Pressing [◀] decreases the intensity, and pressing [▶] increases the intensity.

7 Press [Color] for color copying, or [Black] for black & white copying.

* For more information, refer to the *User's Guide*.

► Advanced Copy Features

|	
Two-sided copying	Copies two document pages onto the sides of a single sheet of paper.*
2 on 1 copy	Reduces two document pages to fit onto one page.*
4 on 1 copy	Reduces four document pages to fit onto one page.*
Sticker copy	Easily makes stickers from 4" x 6" / 101.6 mm x 152.4 mm photos or graphics.*
Borderless copying	Copies images so that they fill the entire page without borders.*
Repeating an image on a page (Image repeat)	Copies an image multiple times onto a single page.*
Collation	Delivers multiple copies of a multi-page document in sorted sets.*
Fading restoration copy	Helps to correct the color and scans documents that have faded due to the passage of time or other causes.*
DVD/CD label copy	Easily makes DVD/CD label copy from scanned images.*

* For more information, refer to the *User's Guide*.

5 Printing from a Memory Card

There are several ways you can print photos directly from a memory card.

▶ Inserting and Removing Memory Cards

Inserting the Memory Card

1 **Press [ON/OFF] to turn on the machine.**

2 **Open the Card Slot Cover.**
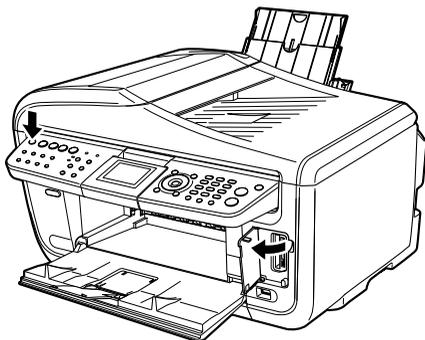

3 **Insert a memory card into the Card Slot.**

Card Type	Inserting Card
• Compact Flash (CF) card • Microdrive • xD-Picture card*	Insert into the Card Slot on the left side. The Access Lamp (A) lights up.
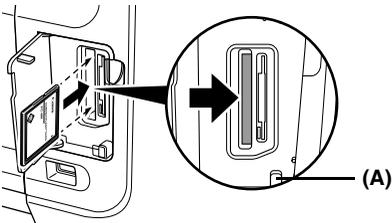

Card Type	Inserting Card
• SmartMedia	 Insert into the Card Slot on the right side. The Access Lamp (A) lights up.
• MEMORY STICK • MEMORY STICK PRO • MEMORY STICK Duo* • MEMORY STICK PRO Duo* • SD Secure Digital memory card • miniSD Card* • MultiMedia card	 Insert into the center part of the Card Slot on the right side. The Access Lamp (A) lights up.
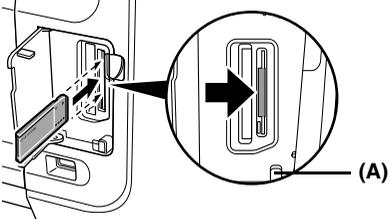

* Be sure to attach the memory card to the special adapter before inserting it into the Card Slot.

4 Ensure that the Access Lamp is lit.

5 Close the Card Slot Cover.

Removing the Memory Card

1 Open the Card Slot Cover.

2 Ensure that the Access Lamp is not flashing, then remove the memory card.

3 Close the Card Slot Cover.

▶ Easy Printing (Printing Photo Displayed on the LCD)

1 Press [ON/OFF] to turn on the machine.

2 Load paper.

3 Ensure that the proper paper source is selected.

4 Insert a memory card into the Card Slot.

5 Press [MEMORY CARD].

6 Use [◀] or [▶] to select <Single-photo print>, then press [OK].

7 Use [◀] or [▶] to select a photo, then press [Color].

8 Use [▲] or [▼], or the Numeric buttons to specify the number of prints.*

9 Press [Color].

* To change the page size and media type, refer to the *User's Guide*.

▶ Advanced Memory Card Printing Features

Single-photo print	Views memory card images one at a time and easily prints.
Multi-photo print	Specifies the number of prints to be made for each photo.*
Layout print	Prints the specified photos in the specified layout.*
Creating Stickers (Sticker Print)	Easily makes stickers from images saved on a memory card.*
Printing all photos	Prints all images saved on the memory card.*
Photo Index print	Prints a list of all the images saved on a memory card.*
DPOF (Digital Print Order Format) Printing	Prints by automatically applying DPOF settings.*
Captured info	Prints information on photographs at the time of its shooting (Exif info) in the margin of Photo index print or selected individual photos.*
DVD/CD label print	Easily makes DVD/CD label print from images of memory cards.*
Viewing Images (Slide Show)	Automatically cycles through the images contained on a memory card in sequence.*
Searching for Photos By Date (Search)	Displays the photos within the specified date range.*
Trimming	Edit images displayed on the LCD by cropping them.*

* For more information, refer to the *User's Guide.*

6 Printing Photographs Directly from a Compliant Device

Connecting a PictBridge- or Canon Bubble Jet Direct-compatible digital camera, camcorder or mobile phone to the machine allows you to print recorded images directly without using a computer.

▶ Connecting to a PictBridge Compliant Device

1 **Press [ON/OFF] to turn on the machine.**

2 **Load paper.**

3 **Ensure that the proper paper source is selected.**

4 **Ensure that the device is turned off.**

**5** **Connect the device to the machine using the USB cable supplied with the device.**

Some types of the device turn on automatically, when connected to the machine. If the device not turns on automatically, turn it on manually.

6 **Turn on and set up the device for direct printing.**

7 Preparing Your Machine for Fax

▶ Examples of Connecting the Machine

Connecting to the Telephone Line

Connecting to an Analog Line

Telephone line (analog)

Connecting to an ADSL

Asymmetric Digital Subscriber Line   **Splitter**

ADSL modem (splitter may be built-in to the modem)

Computer
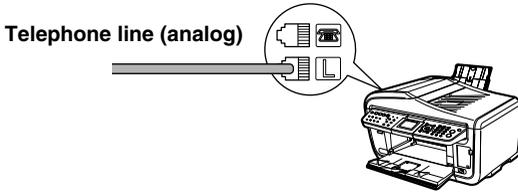

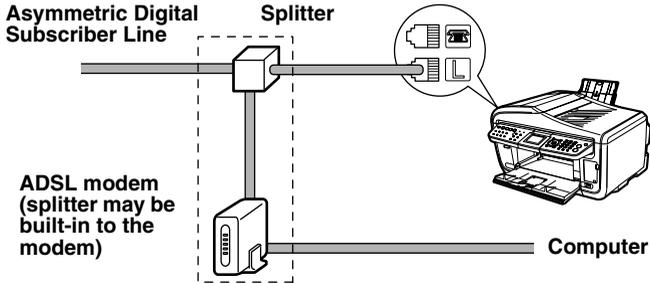

For details on ADSL connection and settings, see the manual supplied with your ADSL modem. The illustrated connection is an example and is not guaranteed to suit every connecting condition.

Connecting to an ISDN Line
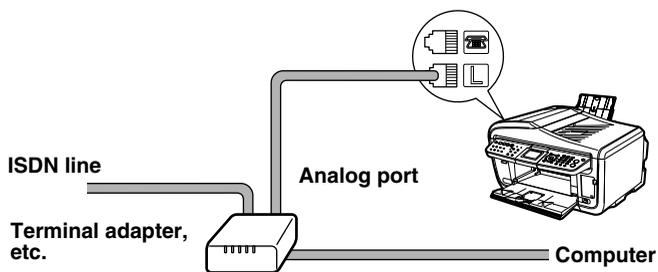

For details on ISDN connection and settings, see the manuals supplied with your terminal adapter or dial-up router.

Connecting External Devices

Connecting a Telephone or Answering Machine via a Computer
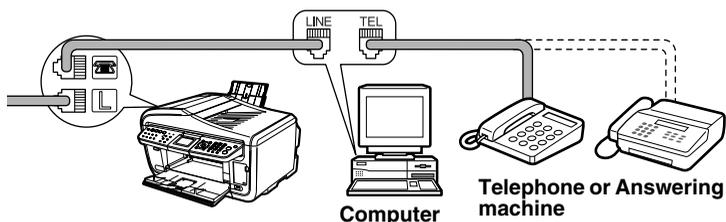

Connecting a Telephone or Answering Machine Directly
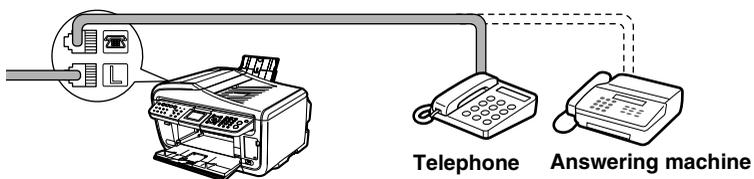

▶ Setting the Telephone Line Type

1 **Press [FAX], then press [Menu].**

2 **Use [◀] or [▶] to select <Maintenance/settings>, then press [OK].**

3 **Use [◀] or [▶] to select <Device settings>, then press [OK].**

4 **Use [▲] or [▼] to select <Fax settings>, then press [OK].**

5 **Use [▲] or [▼] to select <User settings>, then press [OK].**

6 **Use [▲] or [▼] to select <Telephone line type>, then press [OK].**

7 **Use [▲] or [▼] to select the telephone line type, then press [OK].**

- <Rotary pulse>: Suitable for pulse dialing.
- <Touch tone>: Suitable for tone dialing.

▶ Registering Sender Information

1 **Press [FAX], then press [Menu].**

2 **Use [◀] or [▶] to select <Maintenance/settings>, then press [OK].**

3 **Use [◀] or [▶] to select <Device settings>, then press [OK].**

4 **Use [▲] or [▼] to select <Fax settings>, then press [OK].**

5 **Use [▲] or [▼] to select <User settings>, then press [OK].**

6 **Use [▲] or [▼] to select <Date/time setting>, then press [OK].**

7 **Use the Numeric buttons to enter the date and time (in 24-hour format), then press [OK].**

8 **Use [▲] or [▼] to select <Unit name/TEL registr.>, then press [OK].**

9 **Use the Numeric buttons to enter your name (max. 24 characters, including spaces), then press [OK].**

10 **Use the Numeric buttons to enter your fax/telephone number (max. 20 digits, including spaces), then press [OK].**

▶ Registering One-Touch Speed Dialing or Coded Speed Dialing

There is also a group dialing method to send a document to all numbers in the registered group. For details, see *User's Guide*.

1 Press [FAX], then press [Menu].

2 Use [◀] or [▶] to select <TEL number registration>, then press [OK].

3 Use [▲] or [▼] to select <One-touch speed dial> or <Coded speed dial>, then press [OK].

If you select <One-touch speed dial>:

1. Use [▲] or [▼] to select an unoccupied One-Touch Speed Dial Key (01 to 08), then press [OK].

If you select <Coded speed dial>:

1. Use the Numeric buttons or [▲], [▼], [◀], [▶] to select an unoccupied speed dialing code (00 to 99), then press [OK].

4 Use the Numeric buttons to enter a name for the One-Touch Speed Dial Key or the speed dialing code (max. 16 characters, including spaces), then press [OK].

5 Use the Numeric buttons to enter the fax/telephone number (max. 60 characters, including spaces) you want to register.

6 Press [OK].

Changing or Deleting a One-Touch Speed Dialing and a Coded Speed Dialing

● **To change a registered name or number:**

1. Follow steps from 1 to 3 under "Registering One-Touch Speed Dialing or Coded Speed Dialing" on page 39.

2. Use [▲] or [▼] to select the One-Touch Speed Dial Key (01 to 08) or the Coded Speed Dialing Code to edit, then press [OK].

3. Use [▲] or [▼] to select <Edit>, then press [OK].

4. Use the Numeric buttons to enter the new name (max. 16 characters, including spaces), then press [OK].

5. Use the Numeric buttons to enter the new fax/telephone number (max. 60 characters, including spaces), then press [OK].

● **To delete an entire entry:**

1. Follow steps from 1 to 3 under "Registering One-Touch Speed Dialing or Coded Speed Dialing" on page 39.

2. Use [▲] or [▼] to select the One-Touch Speed Dial Key (01 to 08) or the Coded Speed Dialing Code to delete, then press [OK].

3. Use [▲] or [▼] to select <Delete>, then press [OK].

4. Use [▲] or [▼] to select <Yes>, then press [OK].

▶ Setting Daylight Saving Time (Summer Time)

1 Press [FAX], then press [Menu].

2 Use [◀] or [▶] to select <Maintenance/settings>, then press [OK].

3 Use [◀] or [▶] to select <Device settings>, then press [OK].

4 Use [▲] or [▼] to select <Fax settings>, then press [OK].

5 Use [▲] or [▼] to select <User settings>, then press [OK].

6 Use [▲] or [▼] to select <Summer time setting>, then press [OK].

7 Use [▲] or [▼] to select <ON> to enable summer time or <OFF>, then press [OK].

8 Use [▲] or [▼] to select <Start date/time>, then press [OK].

9 Use [▲] or [▼] to select the month when summer time starts, then press [OK].

10 Use [▲] or [▼] to select the week when summer time starts, then press [OK].

11 Use [▲] or [▼] to select the day of the week when summer time starts, then press [OK].

12 Use the Numeric buttons to enter the time (in 24-hour format) when summer time starts, then press [OK].

13 Use [▲] or [▼] to select <End date/time>, then press [OK].

14 Use [▲] or [▼] to select the month when summer time ends, then press [OK].

15 Use [▲] or [▼] to select the week when summer time ends, then press [OK].

16 Use [▲] or [▼] to select the day of the week when summer time ends, then press [OK].

17 Use the Numeric buttons to enter the time (in 24-hour format) when summer time ends, then press [OK].

▶ Guidelines for Entering Numbers, Letters, and Symbols

1 Press [⁂] to switch to uppercase letter mode (:A), lowercase letter mode (:a), or number mode (:1).

2 Use the Numeric buttons to enter a character.

Press the button repeatedly until the character you want appears.

● **To enter a character that is under the same button as the previous entry:**

1. Press [▶], then press the same Numeric button.

● **To enter a space:**

1. Press [▶] twice. In number mode, press [▶] once.

● **To delete a character:**

1. Press [◀].

● **To delete an entire entry:**

1. Press and hold [◀].

Models with lowercase letter mode:

Button	Uppercase letter mode	Lowercase letter mode	Number mode
[1]			1
[2]	ABCÅÄÁÀÃÂÆÇ	abcåäáàãâæç	2
[3]	DEFËÉÈÊ	defëéèê	3
[4]	GH I Ï Í Ì Î	gh i ï í ì î	4
[5]	JKL	jkl	5
[6]	MNOÑØÖÓÒÕÔ	mnoñøöóòõô	6
[7]	PQRSÞ	pqrsþ	7
[8]	TUVÜÚÙÛ	tuvüúùû	8

[0]		0
[#]	-. ✱#!",;:^`_=/|'?$@%&+()[]{}<>	

8 Sending Faxes

▶ Sending Methods

1 Press [ON/OFF] to turn on the machine.

2 Load the document on the Platen Glass or the ADF.

3 Press [FAX].

4 Adjust fax settings as necessary.

5 Dial the recipient's number using the Numeric buttons or speed dialing.

6 Press [Color] for color sending, or [Black] for black & white sending.

One-Touch Speed Dialing

1 Press the One-Touch Speed Dial Key (01 to 08) that has been assigned the number you want to dial.

Coded Speed Dialing

1 Press [Coded Dial].

2 Use the Numeric buttons to enter the two-digit code (00 to 99) assigned to the number you want to dial, then press [OK].

9 Receiving Faxes

▶ Receive Modes

If You Want to Receive Only Faxes Automatically with Your Machine, or Have a Dedicated Telephone Line for Fax Use Only:

Select <FAX only>.

When you receive a fax call	The machine will receive the fax automatically.
When you receive a voice call	You will not be able to answer the call.

If You Receive Mainly Voice Calls and Sometimes Faxes, or Want to Receive Faxes Manually:

Select <Manual RX>.

When you receive a fax call	The telephone will ring. Pick up the handset and if you hear a high-pitched signal, press [Color] or [Black] on the machine to receive the fax. If the document is not set on the sending side, your machine will go into the reception standby mode.
When you receive a voice call	The telephone will ring. Pick up the handset to answer the call.
For remote receiving	If you are far from your machine, dial 25 (the remote receiving ID) on your telephone to receive faxes.

If You Want to Receive Voice Messages on Your Answering Machine and Receive Faxes Automatically:

Select <Ans. machine connect.>.

When you receive a fax call	First the answering machine connected to your machine will respond to an incoming call, and then the machine will receive faxes automatically.
When you receive a voice call	The answering machine connected to your machine will respond to an incoming call.

If You Want to Receive Faxes Automatically as well as Voice Calls:

Select <FAX/TEL auto switch>.

When you receive a fax call   The machine will receive the fax automatically.
When you receive a voice call   The telephone will ring. Pick up the handset to answer
the call. Some types of telephones may not ring,
however.

If You Have Subscribed to a Distinctive Ring Pattern Detection (DRPD) Service with Your Telephone Company (US and Canada only):

Select <DRPD>.

When you receive a fax call   The machine will ring according to the ring pattern you
have chosen and receive the fax automatically.
When you receive a voice call   The telephone will ring according to the ring pattern you
have chosen. Pick up the handset to answer the call.

If You Want Your Machine to Automatically Switch between Fax and Voice Calls by the Call Ring Patterns (Network Switch):

Select <Network switch>.

When you receive a fax call   The machine will ring and receive the fax automatically.
When you receive a voice call   The telephone will ring. Pick up the handset to answer
the call.

▶ Setting the Receive Mode

1 **Press [FAX], then press [Menu].**

2 **Use [◀] or [▶] to select <Receive mode settings>, then press [OK].**

3 **Use [▲] or [▼] to select a receive mode, then press [OK].**

10 Maintenance

▶ Replacing an Ink Tank

1 Open the Scanning Unit (Printer Cover) and the Paper Output Tray.

1. Make sure the machine is turned on.

2. Raise the Scanning Unit (Printer Cover) until it stops.

(A)
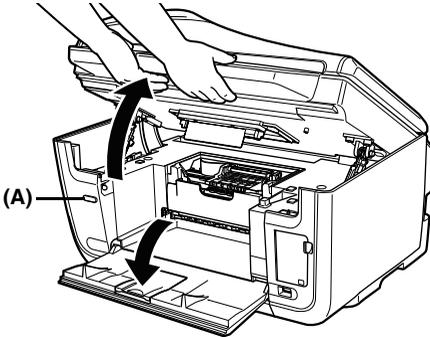

Press the Open Button (A) to open the Paper Output Tray if it does not open automatically.

2 Open the Inner Cover.
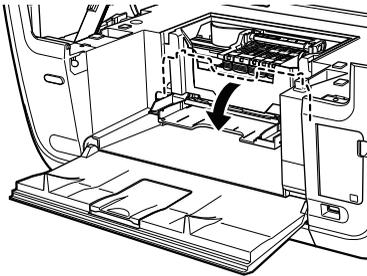

**3 Remove the ink tank whose lamp is flashing fast.**

1. Push the tab (A) and remove the ink tank.

(A)
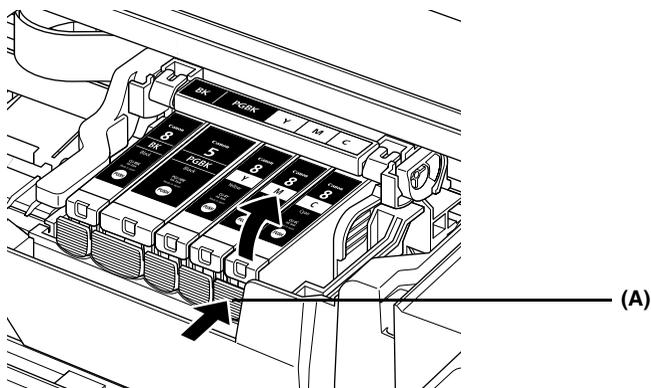

4 Prepare a replacement tank.

1. Remove the new ink tank from its packaging, then pull the orange tape (A) toward the arrow so that the protective film does not remain on the air hole (C). Then remove the film completely (B).

2. Remove the orange protective cap (D) from the bottom of the ink tank and discard it. Carefully hold the protective cap when removing it to prevent the ink from staining your fingers.
Discard the cap once it is removed.

(A) **(D)** **(B)** **(C)**
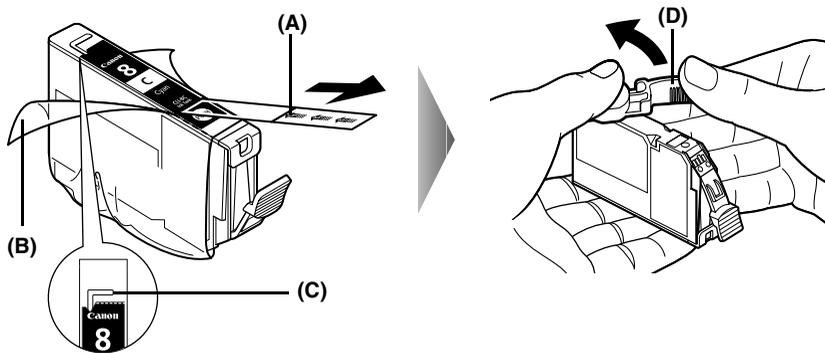

5 Install the ink tank.

1. Install the ink tank into the Print Head.
2. Press on the [PUSH] mark on the ink tank until the ink tank snaps firmly into place.
3. Ensure that the ink tank clicks into place and then its lamp lights red (A).

(A)
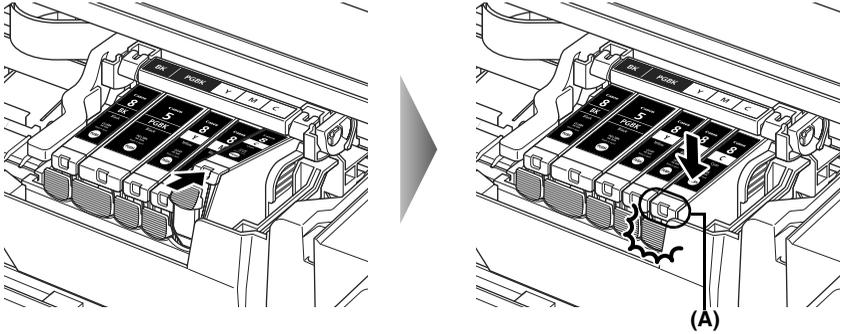

6 Close the Inner Cover.
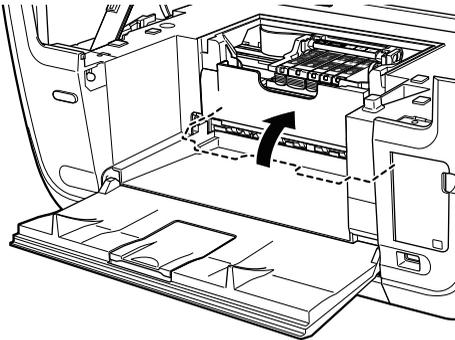

7 Slowly close the Scanning Unit (Printer Cover).

▶ Maintaining the Print Head

Cleaning the Print Head

1 Press [ON/OFF] to turn on the machine.

2 Press [Menu].

3 Use [◀] or [▶] to select <Maintenance/settings>, then press [OK].

4 Use [◀] or [▶] to select <Maintenance>, then press [OK].

5 Use [▲] or [▼] to select <Cleaning> or <Deep cleaning> as necessary, then press [OK].

6 Use [▲] or [▼] to select <Yes>, then press [OK].

Aligning the Print Head Automatically

1 Press [ON/OFF] to turn on the machine.

2 Press [Menu].

3 Use [◀] or [▶] to select <Maintenance/settings>, then press [OK].

4 Use [◀] or [▶] to select <Maintenance>, then press [OK].

5 Use [▲] or [▼] to select <Auto head align>, then press [OK].

6 Load two sheets of A4 or Letter-size plain paper in the Auto Sheet Feeder.

7 Use [▲] or [▼] to select <Yes>, then press [OK].

8 The pattern is printed.
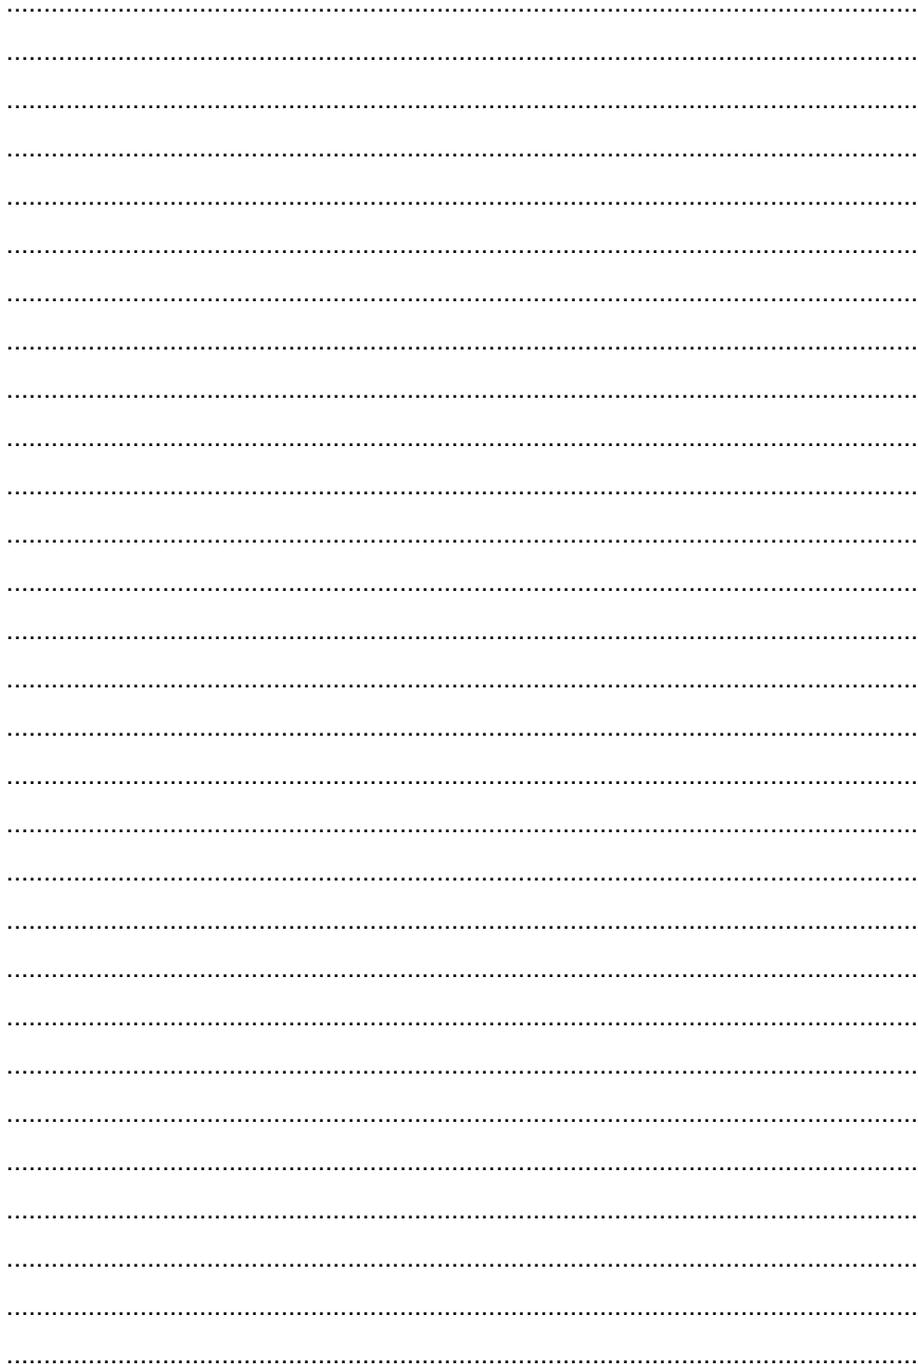

DECLARATION OF CONFORMITY

Printer PIXMA MP830 with Ink TankPGI-5BK, CLI-8Y/M/C/BK

We

Canon Inc.
Tukagoshi 3-451, Saiwai-ku, Kawasaki-shi, Kanagawa 212-8530, Japan

declare under our sole responsibility that the product(s)

Printer ; model K10270 (Sales Name, PIXMA MP830)
Ink Tank ; PGI-5BK, CLI-8Y, CLI-8M, CLI-8C and CLI-8BK

is in conformity with the essential requirements of EC Directive(s)

1999/5/EC

by applying the following standards

EC Directive (s)	Reference of standard(s) and amendment(s)
1999/5/EC	CTR 21: 1999
	EN60950-1: 2001 with the following amendment(s) to this standard
	A11:2004
	EN55022: 1998 with the following amendment(s) to this standard
	A1: 2000 and A2: 2003 (Class B)
	EN55024: 1998 with the following amendment(s) to this standard
	A1: 2001 and A2: 2003
	EN61000-3-2: 2000
	EN61000-3-3: 1995 with the following amendment(s) to this standard
	A1: 2001

Note:
1. The CE Marking is affixed from the year '05.
2. The quality system covering the production is implemented according to
   ISO 9000-Series (EN29000-Series) or monitored based on appropriate measures.
3. Copy of the rating plate of the model (printer) is attached.

Regulatory Information

■■■■■■ **For 110-120V, 50/60Hz model**

Color Printer Model: K10270

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of a shielded cable is required to comply with Class B limits in Subpart B of Part 15 of the FCC Rules.

Do not make any changes or modifications to the equipment unless otherwise specified in the manual. If such changes or modifications should be made, you could be required to stop operation of the equipment.
